

Eastern Plaza Works Update

28/8/2011

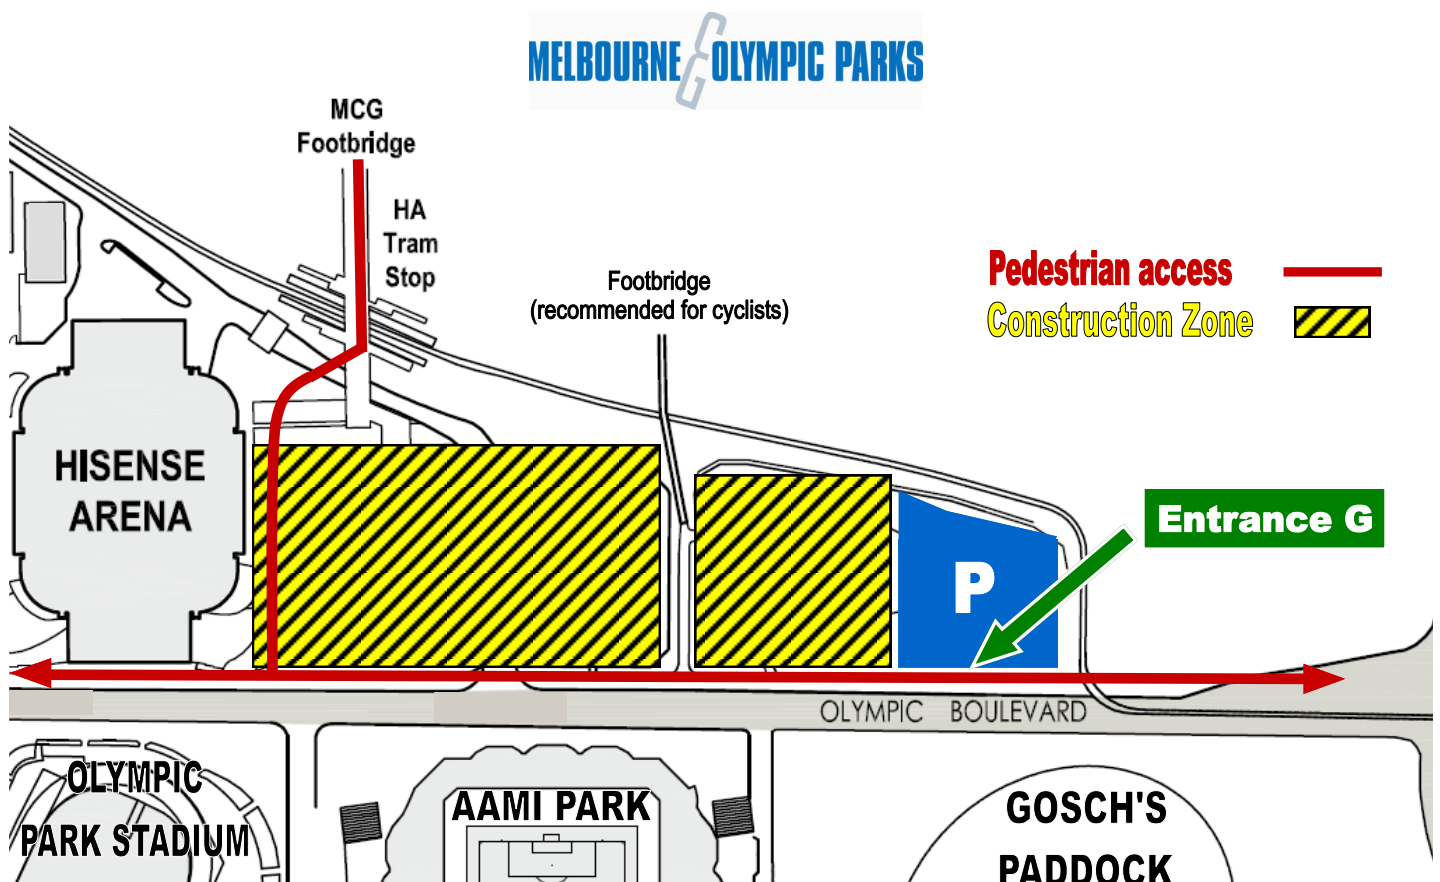

Construction works opposite AAMI Park are continuing on schedule. The Eastern Plaza project is expected to be completed in about two years. Please be aware of the following change to pedestrian access;

Hisense Arena—MCG Footbridge and Tram Stop

A new path from Hisense Arena Tram Stop and the MCG footbridge will be open as of **Friday 2 September** enabling more direct access to Olympic Boulevard and Hisense Arena.

A well lit 3.5m wide fenced path will lead pedestrians to a covered walkway underneath the construction area.

The previous path at the back of the construction zone, alongside the tram line, will be closed.
